

Hamilton Beach® Commercial's New Drink Mixer is up to Twice as Fast

Busy establishments can serve shakes quicker than ever before thanks to Hamilton Beach® Commercial's new Triple Spindle Mixer. This newly designed mixer is the ideal choice for high volume restaurants or ice cream shops.

Each mixer has three 1/3 Hp motors which are significantly more powerful than previous models. Each motor works independently allowing multiple operators the ability to use the mixer at the same time. One spindle can be cleaned while the other two are mixing, or use all three at once for triple the drinks in seconds.

The new all-metal die-cast construction offers heavy-duty durability in a smooth, rounded shape that's easy to clean. Operators can start and stop mixing action by either inserting the cup into the cup guide, or by using the pulse switch on top of the mixer. This added flexibility of the pulse switch is perfect for further reducing mix time. The removable cup guide pulls out for easy cleanup in the dishwasher and each mixer now comes with three stainless steel cups.

KEY FEATURES

Built for Speed – With three 1/3-horsepower motors, the Triple Spindle mixes in just seconds.

Precision Motors – Each motor is individually balanced to minimize vibration. All three motors are built to last with sealed, permanently lubricated ball bearings.

Classic Design – Features durable die-cast metal with smooth rounded design for easy cleaning. Takes significantly less counter space, and looks great on display.

Controls – 3-speed rocker switch and three unique pulse switches (one for each spindle)

Clean-up Made Simple – Removable cup guides and stainless steel cups are dishwasher safe

Warranty – One-year parts and labor

Model: HMD400

Availability: Fall - 2006
